Erie, PA 16501
814.453.7117 ext. 229

DRS recently completed the design and construction of the Erie County Convention Center Hotel. DRS also coordinated the design of the adjacent parking structure. The site offers spectacular views of Presque Isle Bay and Lake Erie. The main program elements include the 100,000 SF Convention Center on neighboring Sassafras Pier, a connecting bridge, a 200 room Sheraton brand Hotel and a 350 car, 4 level parking structure.

The full-service Hotel includes:

- 70-seat restaurant with additional 25 seats on the outdoor terrace
- Lobby bar of 30 seats
- Indoor pool with Jacuzzi and exercise area
- 6,000 SF of meeting space
- Club floor with lounge

The main program elements include the 100,000 SF Convention Center on neighboring Sassafras Pier, a connecting bridge, a 200 room Sheraton brand Hotel and a 350 car, 4 level parking structure.

The hotel is approached from Erie's Main Street extension and offers convenient access under a welcoming porte cochere. The south (city-side) facade presents a commanding landmark to Erie's waterfront. The design of the garage has been carefully integrated with the hotel and includes provisions for future retail use on the ground level. Pedestrian access from the garage to the convention center is via a glazed walkway that intersects with the porte cochere of the Hotel. The walkway terminates in an elevator/stair tower to the pedestrian bridge that connects across the canal to the Convention Center. The north (lake-side) facade is equally emphasized and features a landscaped access drive that can double as a venue for street fairs. Two terraces afford great views of the water and sunsets.
